

Dear Lucas

I'm writing to tell you how pleased I've been with the work from StandardStretch. Everything y'all have done for our Ecommerce has been delivered on time and with great accuracy. Y'all have gone beyond what was expected on several occasions and have introduced methods that have increased our sales online. I really appreciate the way you rescued us right before the Midnight Express when our old site went down.

I've enjoyed meeting and working with your staff. Being a former programmer myself, I'm sure there were times when I drove you crazy but y'all were very accommodating and put up with my last minute changes and millions of questions.

I plan to further Country's relationship with you guys and look forward to our joint success.

Sincerely,

Jim Morpeth

President
